

# Yurt - Rucher de la Cala Melosa

Located in FONTVIEILLE, in Les Bouches du Rhône

---

At the heart of the Alpilles hills, this totally organic farm offers its yurt hidden in the olive trees. A space far from any coercion, any nuisance (trail 2 kms), in a spirit resolutely turned towards the respect for nature and active ecology. Particularly suited to walkers on the road to St Jacques, this Mongolian originated yurt is equipped with futons managed for the night (sheets and blankets on request). It opens onto shaded relaxation areas, garden furniture under the arbor. Kitchen under canopy available to guests (fridge, stove, dishwasher), bathroom space with 2 showers and a sink, dry toilets 20 m from the yurt. All materials used are environment friendly local materials, with a traditional work setting (lime wash, natural dyes). Hot water is provided by solar panels, a natural source feeds the site, a pond with a purification system by plants allows the emergence of a real plant and animal ecosystem. Outdoor oven for bread. Sophie will make you discover her beekeeper job, will show you how to gather wild plants, and will explain to you the production of olive oil. € 25 per night, breakfast included.
